

# Welcome to **HycO Enterprises**

## **PRODUCT PROPOSAL**

[HYCO | INNOVATIVE AUTOMOTIVE](#)

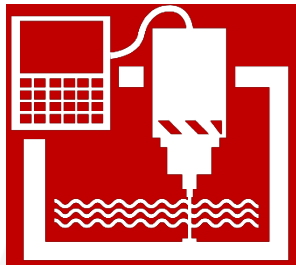

# Hycos Enterprises: Pioneering Automotive Excellence

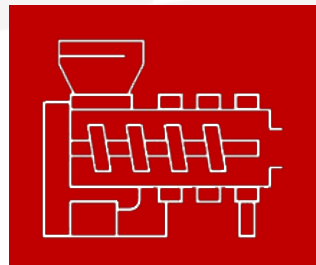

Since 1977, Hycos Enterprises has been synonymous with innovative automotive solutions and quality engineering. Founded by Mr. Satish Wassen, we have built enduring partnerships with leading OEMs, making us a trusted source for comprehensive automotive accessories.

Our commitment to excellence and forward-thinking has driven us to consistently deliver products that meet and exceed industry standards. We invite you to explore our refined range of products and join us in advancing the automotive industry through quality, commitment, and a shared vision for the future.

# VINYL FLOOR MAT

**Segment:** Interior | **Process:** Calendering | **Material:** Vinyl

**Description:** Our Vinyl Floor Mats are crafted from high-quality vinyl, ensuring durability and resistance to moisture, dirt, dust, and mud. Designed to withstand daily wear, these mats offer long-lasting protection for your vehicle's flooring.

## Key Features:

- Custom-made to fit your vehicle's measurements.
- Available in various colors.
- Anti-skid backing.
- Made of high-quality vinyl granules.

# DESIGNER FLOOR MAT

**Segment:** Interior | **Process:** Liquid Pouring | **Material:** Vinyl

**Description:** Our Designer Floor Mats provide a luxury look for your car's interior. These high-quality mats are available in various colors, designs, and thicknesses, ensuring both style and durability.

**Key Features:**

- Multi-colored designs to match car interiors.
- Rubberized vinyl for resistance to wear and water damage.
- Wrinkle-free and crack-resistant.
- High-raised borders for dust retention.

# 3D FLOOR MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** 3D Car Floor Mats are designed to fit the specific contours and dimensions of your vehicle's floor space. They provide superior protection against dirt, mud, spills, and debris and are suitable for all seasons.

## Key Features:

- Anti-skid backing for maximum safety.
- Multiple texture options for aesthetic customization through various grains being available.
- 100% Waterproof.

# 3D DUAL LAYER FLOOR MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** Our 3D Dual Layer Floor Mats feature top layer TPV and bottom layer TPE technology with extra grip. They are custom-fit to perfectly match your car's floor.

## Key Features:

- Outstanding quality layer material for noise absorption.
- Excellent absorption in high-temperature environments.
- Advanced design to dampen rogue sounds.
- Available in multiple designs and colors.

# COLORED 3D FLOOR MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** 3D Car Floor Mats are designed to fit the specific contours and dimensions of your vehicle's floor space. They provide superior protection against dirt, mud, spills, and debris and are suitable for all seasons.

## Key Features:

- Anti-skid backing for maximum safety.
- Multiple texture options for aesthetic customization through various grains being available.
- 100% Waterproof.

# PERFORATED 3D FLOOR MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** Perforated 3D Floor Mats, made using top layer TPV and bottom layer TPE are designed to protect your original car carpets from dust, debris, spills, stains, and everyday wear and tear while maintaining the car's new look. These durable, premium quality mats are easy to clean and long-lasting.

## Key Features:

- Excellent absorption in high-temperature environments.
- Advanced design to dampen rogue sounds.
- Available in multiple designs and colors.

# 3D MAT WITH CARPET

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE with Carpet

**Description:** Our 3D Mats feature two-layered technology for perfect fitting. The carpet layer can be removed during the rainy season and utilized as a 3D mat with the help of eyelets.

## Key Features:

- Combination of style, class, comfort, and protection.
- Custom-fitted for precise fit.
- Convertible design for seasonal use.

# 3D TRUNK MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** Maintain cleanliness and organization in your car with our 3D Trunk Mat. Ideal for storing sports equipment, tools, groceries, and more, this mat is perfect for constant travellers.

## Key Features:

- Resistant to dirt, mud, snow, and all-weather conditions.
- Anti-skid properties to stay in place.
- Enhances aesthetics, safety, and comfort dynamic.

# 7D FLOOR MAT

**Segment:** Interior | **Process:** Thermo-Forming | **Material:** TPE

**Description:** Our premium dual-layer Elastomer 7D Mats are manufactured through thermoforming technology. They help keep moisture and dirt from reaching the vehicle's carpeting and are eco-friendly.

## Key Features:

- Handles various weather conditions.
- Raised edge for complete coverage.
- Eco-friendly and recyclable material
- Available in various designs, colors, and textures.
- Non-flammable and abrasion-free

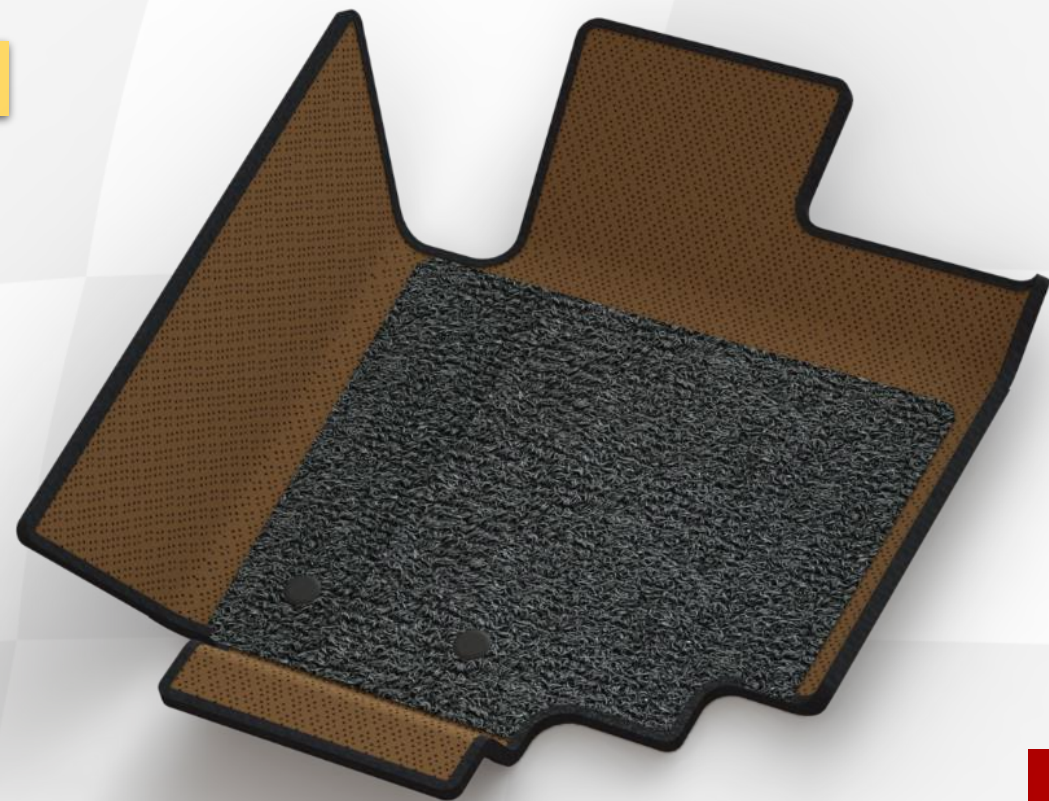

# PERFORATED 7D FLOOR MAT

**Segment:** Interior | **Process:** Thermo-Forming | **Material:** TPE

**Description:** The Perforated 7D Car Floor Mats feature a 7-layer, high-quality material with a perforated design to safeguard your car's interior and enhance its overall look and feel.

## Key Features:

- Premium 7-dimensional design with superior quality.
- Raised edge for complete coverage.
- Classy quilted texture.
- 100% waterproof.
- Automotive-grade material for maximum safety.

# STANDARD CARPET FLOOR MAT

**Segment:** Interior | **Process:** Edge Biding | **Material:** PET Carpet

**Description:** Our Standard Carpet Floor Mats are designed to keep your car's interior clean and dust-free. Specifically crafted to complement your car's interior, these mats offer an excellent fit and maintain their integrity even after years of use.

## Key Features:

- High-quality layer material for noise absorption.
- Excellent absorption in high-temperature environments.
- Advanced design to dampen rogue sounds in your car.

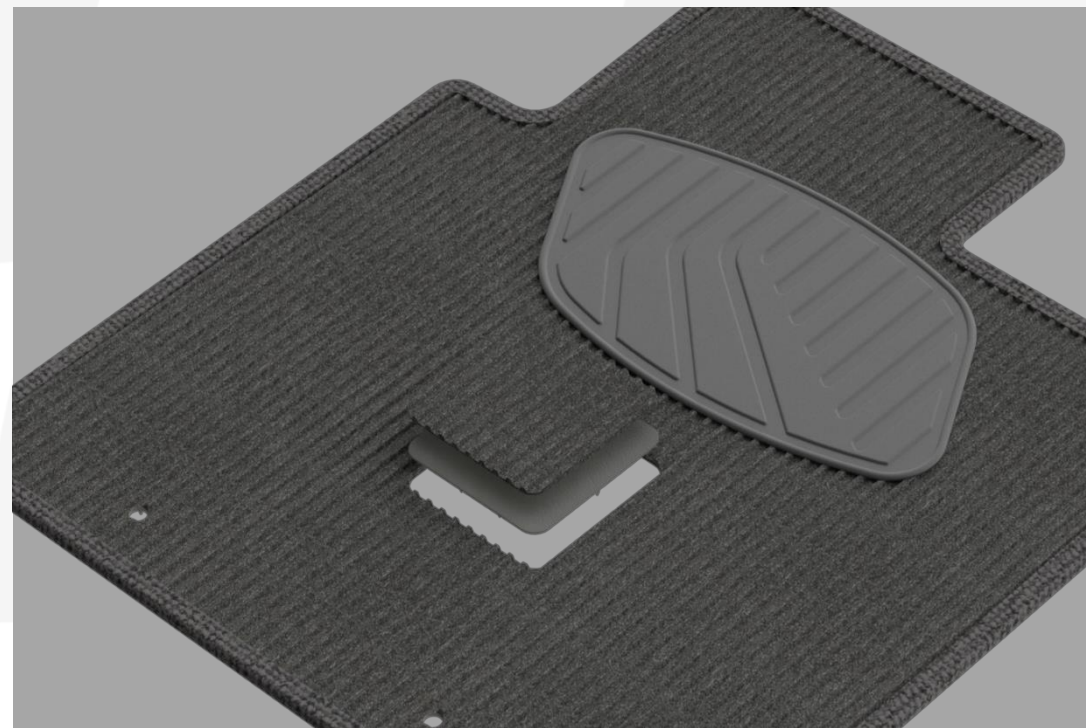

# MOLDED CARPET FLOOR MAT

**Segment:** Interior | **Process:** Calendering | **Material:** TPE

**Description:** Our Molded Carpet Floor Mats feature molecular bonding for enhanced durability and water resistance. This strong bond between layers prevents wear and tear, ensuring long-lasting performance while protecting your vehicle's interior from water damage and stains.

## Key Features:

- Carpeted top layer and TPE bottom layer provide year-round comfort and protection.
- Made from odourless elastomer.
- Elastomer is considered more environmentally friendly.
- The carpeted top layer simplifies cleaning.

# PRINTED CARPET FLOOR MAT

**Segment:** Interior | **Process:** Calendering | **Material:** Polyamide

**Description:** Our Printed Carpet Floor Mats are designed with raised edges to fit your car's floor perfectly. These high-quality mats do not easily deform or split even after years of use.

## Key Features:

- Molecularly bonded, making it 100% waterproof and washable.
- Available in multiple designs and colours.
- Customizable with metallic edging and branding.

# PREMIUM CARPET FLOOR MAT

**Segment:** Interior | **Process:** Edge Biding | **Material:** Elastomer

**Description:** Premium Quilted Floor Mats are designed to add luxury and style to your vehicle's interior. These high-quality mats feature a quilted or diamond-stitched pattern, commonly used in upscale or luxury vehicles, to evoke a sense of sophistication and elegance.

## Key Features:

- Quilted stitching pattern for added visual appeal and sophistication.
- Thick and plush carpeting provides a comfortable surface for passengers.

# PLUSH CARPET FLOOR MAT

**Segment:** Interior | **Process:** Edge Biding | **Material:** Polypropylene

**Description:** The Plush Carpet Floor Mats are a durable, moisture-resistant addition to your car's interior. They do not absorb dust, dirt, or mud and act as a sound dampener, absorbing noise from different sections of the car.

## Key Features:

- Custom-made to your vehicle's measurements.
- Anti-skid backing.
- Molecularly bonded, making it 100% waterproof and washable.

# 5D DIMENSIONAL FLOOR MAT

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** TPE

**Description:** Hyco presents an exclusive range of 5D custom-fitted car mats that elevate your car's interior with comfort, elegance, and healthy driving. These mats add a luxurious, tailor-made look to your vehicle.

## Key Features:

- Extremely durable materials.
- Anti-slip, waterproof, and dust-proof.
- Protects against stains, fading, and dirt.
- Easy to clean.

# NVH FLOOR MAT

**Segment:** Interior | **Process:** Thermo-Forming | **Material:** PU+Carpet

**Description:** NVH (Noise, Vibration, and Harshness) floor mats are designed to minimize vibrations and reduce noise levels, providing a smoother and more comfortable ride, especially on rough or uneven surfaces.

## Key Features:

- **Enhanced Comfort:** Reduces noise and vibrations, minimizing driver fatigue and increasing passenger comfort during long trips.
- **Premium Materials:** Made from high-quality materials engineered for optimal noise and vibration reduction without compromising durability.
- **Improved Driving Dynamics:** Reduces unwanted noise and vibrations, improving handling, control, and overall driving experience.

# SCUFF PLATE

**Segment:** Interior | **Process:** Laser Etching | **Material:** PP with SS

**Description:** Scuff plates protect your vehicle's door sills from damage, helping to preserve the overall condition and resale value. They are available in various materials, designs, and finishes, allowing for customization of your vehicle's interior.

## Key Features:

- Easy to install and replace.
- Prevents rust and corrosion.
- Customizable for a personalized look.
- Enhances vehicle aesthetics.

# PARCEL TRAY

**Segment:** Interior | **Process:** Vacuum Forming | **Material:** PP with Carpet

**Description:** Parcel trays offer functionality, safety, and convenience by securing loose items in the trunk and providing privacy. They help reduce noise and vibrations and protect items from direct sunlight.

## Key Features:

- Hides trunk contents for privacy.
- Reduces noise and vibrations.
- Protects items from sunlight.
- Enhances interior comfort and safety.

# PET CAR SEAT COVER

**Segment:** Interior | **Process:** Edge Biding | **Material:** Elastomer

**Description:** Our PET Car Seat Cover provides a kennel-like environment for pets, helping them adapt quickly. The mesh visual window ensures better air circulation and reduces anxiety by allowing pets to see you. It protects your seats from sharp claws and is easy to clean with a damp cloth or vacuum.

## Key Features:

- Comfortable environment for pets.
- Better air circulation with mesh window.
- Easy to clean.
- Non-slip design for secure fit.

# RAIN VISOR

**Segment:** Interior | **Process:** Injection Moulding | **Material:** Polycarbonate

**Description:** Rain visors block sun rays, reduce wind noise, and keep rain out while allowing you to open windows. Made from durable polycarbonate, they enhance your car's exterior appearance and improve visibility.

## Key Features:

- Blocks sun rays and reduces wind noise.
- Durable polycarbonate material.
- Keeps rain out while windows are open.
- Enhances exterior appearance and visibility.

# BOOT ORGANISER

**Segment:** Interior | **Process:** Thermo-Forming | **Material:** TPE

**Description:** The Car Trunk Organizer keeps your tools and equipment portable and organized. Made from durable TPE material, it features multiple pockets and compartments, is fully collapsible, and has a stylish design that enhances your car's interior.

## Key Features:

- Fully collapsible for easy storage.
- Multiple pockets for optimal organization.
- Durable and long-lasting.
- Stylish and functional design.

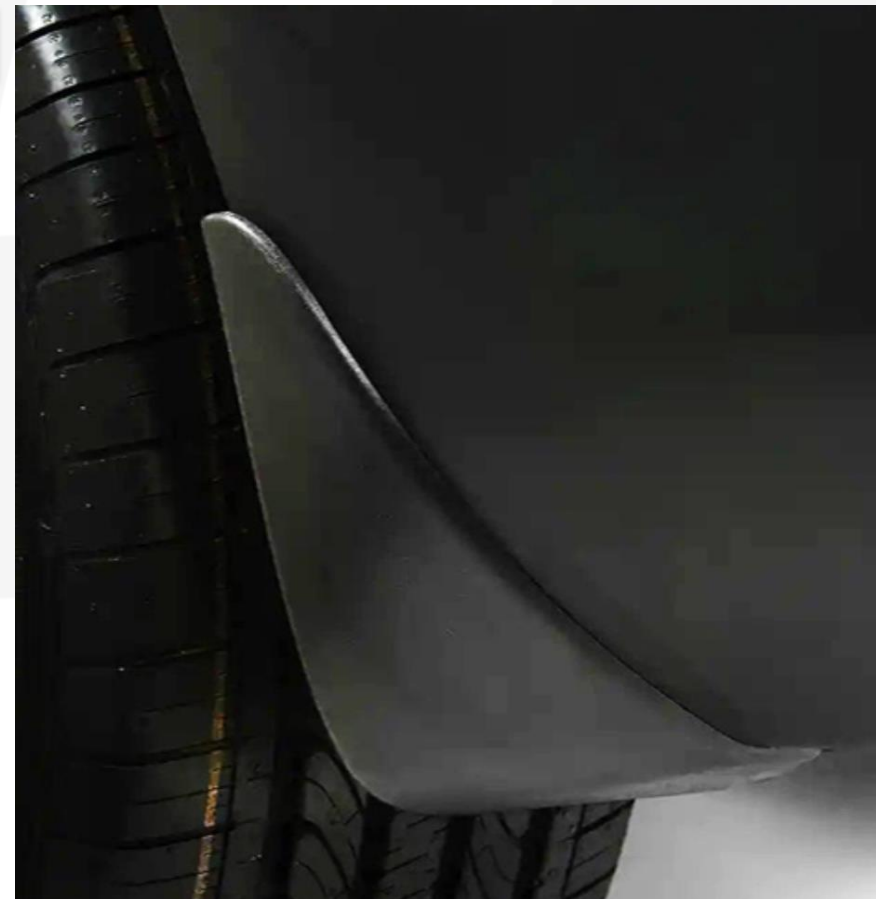

# CAR MUDFLAP

**Segment:** Exterior | **Process:** Injection Moulding | **Material:** PP/EPDM

**Description:** Mud flaps protect your vehicle from mud, dust, and other debris. They prevent scratches, corrosion, and improve visibility by reducing spray from tires, especially in wet or muddy conditions.

## Key Features:

- Protects paint and bodywork.
- Prevents corrosion.
- Improves visibility by reducing spray.
- Durable and easy to install.

# BUMPER CORNER PROTECTOR

**Segment:** Exterior | **Process:** Liquid Pouring | **Material:** Vinyl

**Description:** Bumper corner protectors enhance your vehicle's appearance and durability by absorbing impacts and preventing damage to the bumper's paint and structure. They are customizable and add a touch of style.

## Key Features:

- Absorbs impacts to protect bumper.
- Customizable with various styles and finishes.
- Enhances vehicle aesthetics.

# TAILGATE SEAT ORGANISIER

**Segment:** Exterior | **Process:** Vacuum Forming | **Material:** ABS

**Description:** The Tailgate Seat Organizer is ideal for outdoor activities, providing a comfortable seat and maximizing storage space. It is perfect for tailgating, camping, picnics, and more.

## Key Features:

- Versatile use for outdoor activities.
- Maximizes storage space in the vehicle.
- Provides a comfortable seat.
- Durable and easy to install.

# SIDE SEAT STORAGE BAG

**Segment:** Interior | **Process:** Stitching | **Material:** TPE

**Description:** Side Seat Storage Bags keep your car interior organized and clutter-free. They provide convenient storage for essential items, maximize space, and reduce distractions while driving.

## Key Features:

- Keeps car interior organized.
- Easy access to essential items.
- Maximizes storage space.
- Reduces driving distractions.

# WEDGE FOOT REST

**Segment:** Interior | **Process:** PU | **Material:** PU

**Description:** The Wedge Foot Rest improves comfort, posture, and circulation during long drives. It helps relieve pressure on legs and back, promoting a comfortable and healthy driving experience.

## Key Features:

- Relieves pressure on legs and back.
- Improves posture and circulation.
- Enhances driving comfort.
- Durable and easy to use.

# REVERSIBLE CAR SEAT CUSHION

**Segment:** Interior | **Process:** PU | **Material:** PU

**Description:** The Reversible Car Seat Cushion provides comfort and support during long drives. Its reversible design offers flexibility in terms of material and is easy to clean with removable, washable covers.

## Key Features:

- Enhances comfort and support.
- Reversible design for flexibility.
- Easy to clean with washable covers.
- Durable and ergonomic.

# ARM REST

**Segment:** Interior | **Process:** PU | **Material:** PU

**Description:** The Car Arm Rest provides a comfortable resting place for your arm while driving. It often includes storage compartments for small personal items, enhancing both comfort and functionality.

**Key Features:**

- Enhances driving comfort.
- Built-in storage compartments.
- Matches car interior.
- Easy to install.

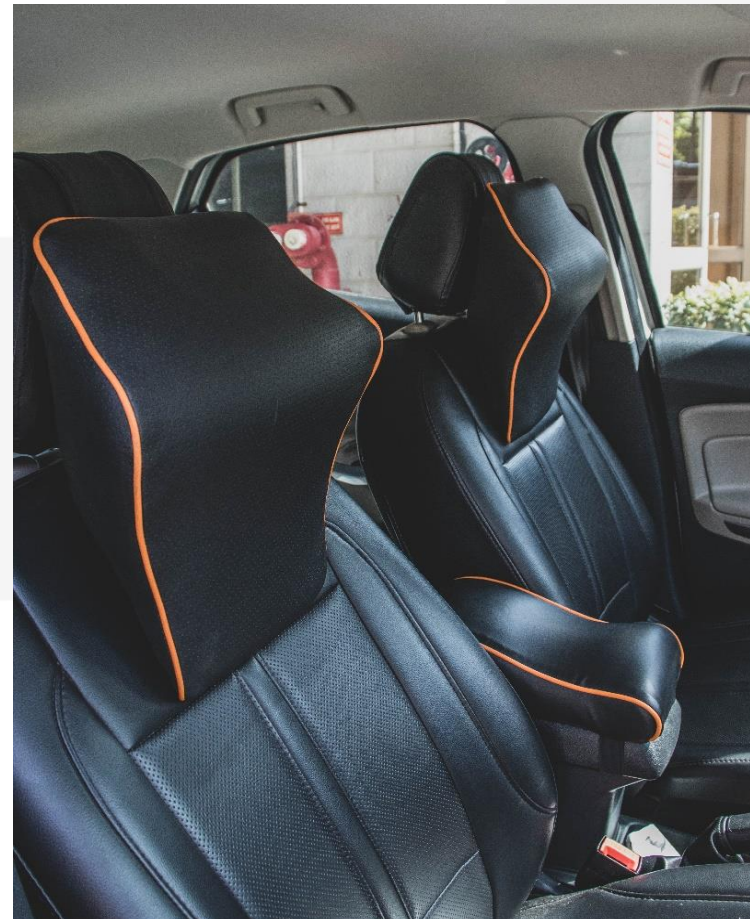

# NECK REST

**Segment:** Interior | **Process:** PU | **Material:** PU

**Description:** Car Neck Rests provide support for the neck and head, reducing strain and discomfort during long drives. Made from memory foam, they contour to your neck for optimal comfort.

## Key Features:

- Provides neck and head support.
- Reduces strain and discomfort.
- Memory foam for optimal comfort.
- Easy to install and adjust.

# SEAT CUSHION

**Segment:** Interior | **Process:** PU | **Material:** PU

**Description:** Memory Foam Seat Cushions provide ergonomic support, alleviating discomfort and pain in the lower back, hips, and tailbone. They promote proper spinal alignment and are easy to install.

## Key Features:

- Provides ergonomic support.
- Alleviates discomfort and pain.
- Promotes proper spinal alignment.
- Durable and easy to install.

**100% MEMORY FOAM CUSHION**

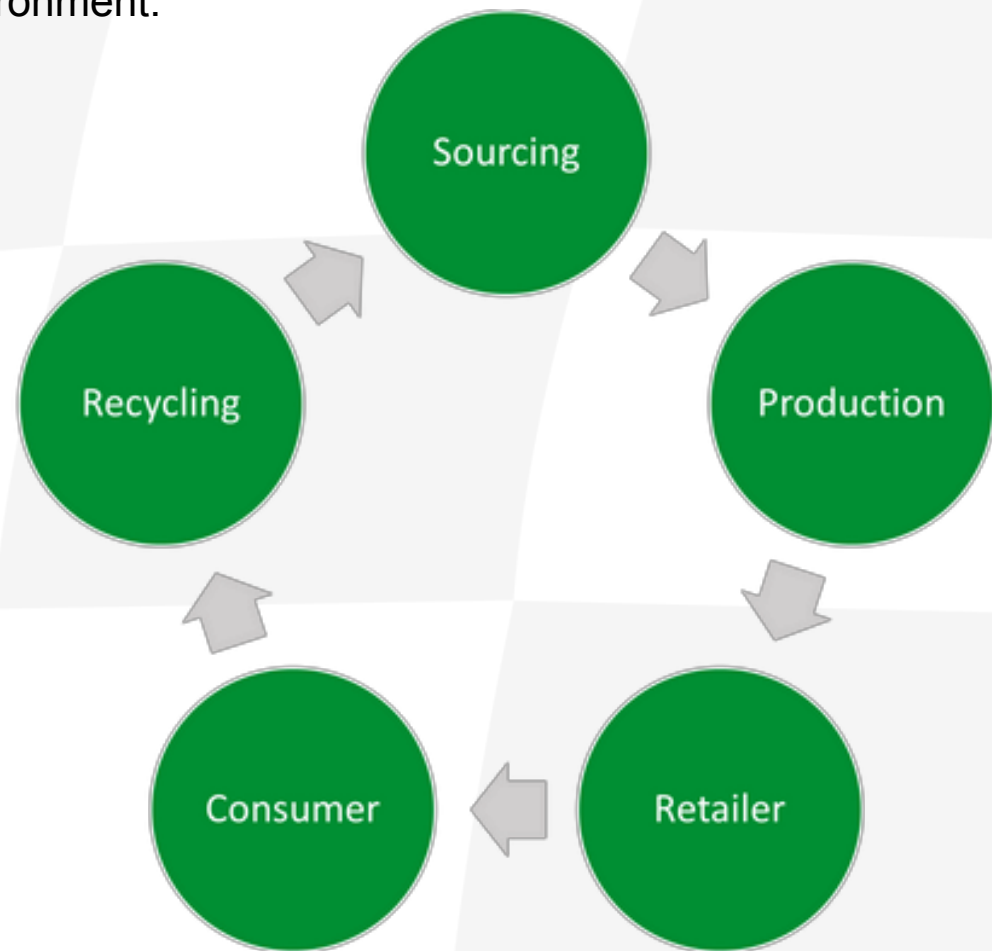

# SUSTAINABILITY

We Value the Nature

Sustainability has always been an indispensable part of Hyco's corporate policy. We practice it in our daily work and management principles. It is a crucial part of the company's corporate policy and strategy. Our aim is to go green by increasing reusability and lessening the burden of polluting our environment.

- ✓ Conservation of the ecosystem or the environment.
- ✓ Conservation of biodiversity of the planet.
- ✓ Sustainable development of the society.
- ✓ Conservation of human resources.
- ✓ Population control and management.

### Three pillars of sustainability

## Sustainability

**Environmental**

**Social**

**Economic**

# BOTTLES TO CARPET MAT

---

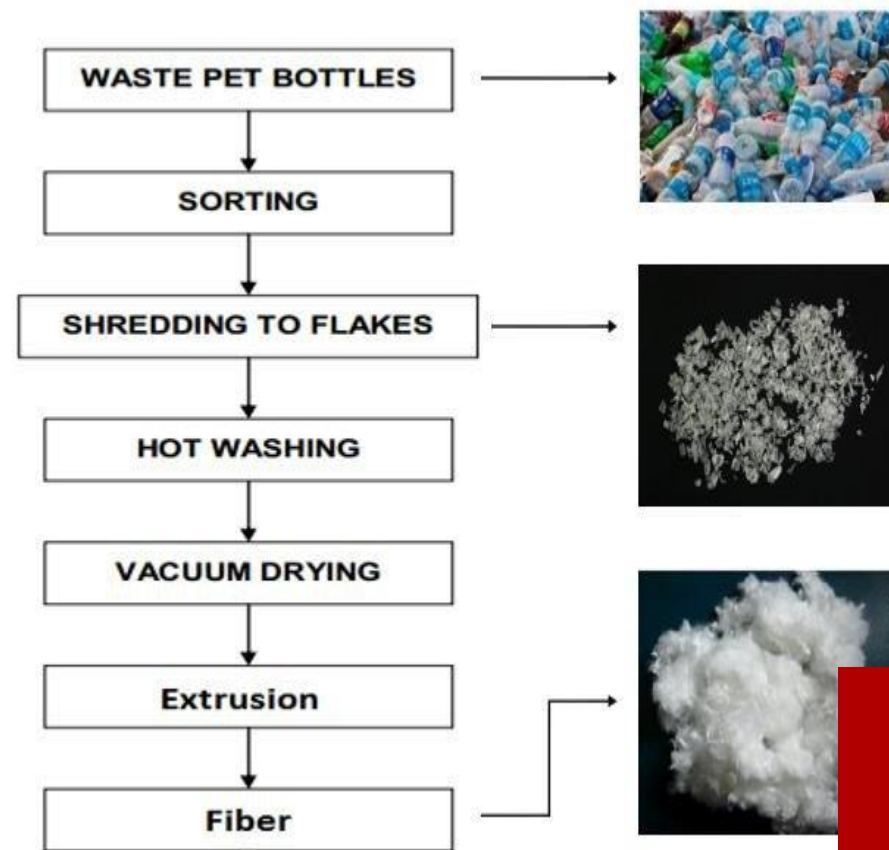

The world is in our hands – let's recycle our plastic bottles!

# BOTTLES TO CARPET MAT

## BOTTLES TO AUTOMOTIVE CARPET PRODUCTS

As the world is moving towards Sustainability, HYCO introduces the first of its-kind, Floor mats made out of recycled plastic fiber (P.E.T).

- PET bottles take about 450 years to decompose.
- HYCO is committed to using only 100% Recycled PET Fiber in creation of floor mat products.
- A single floor mat panel utilizes fiber from about 161Ltr. Pet Bottles.
- A continuous and concise Manufacturing process and stringent Quality control methods have ensured a consistent Base quality of Fabric which is flexible for multi-purpose usage and a whole range of Consumer Products.

## HERE IS OUR FINAL PRODUCT

# VINYL SCRAP TO VINYL FLOOR MAT

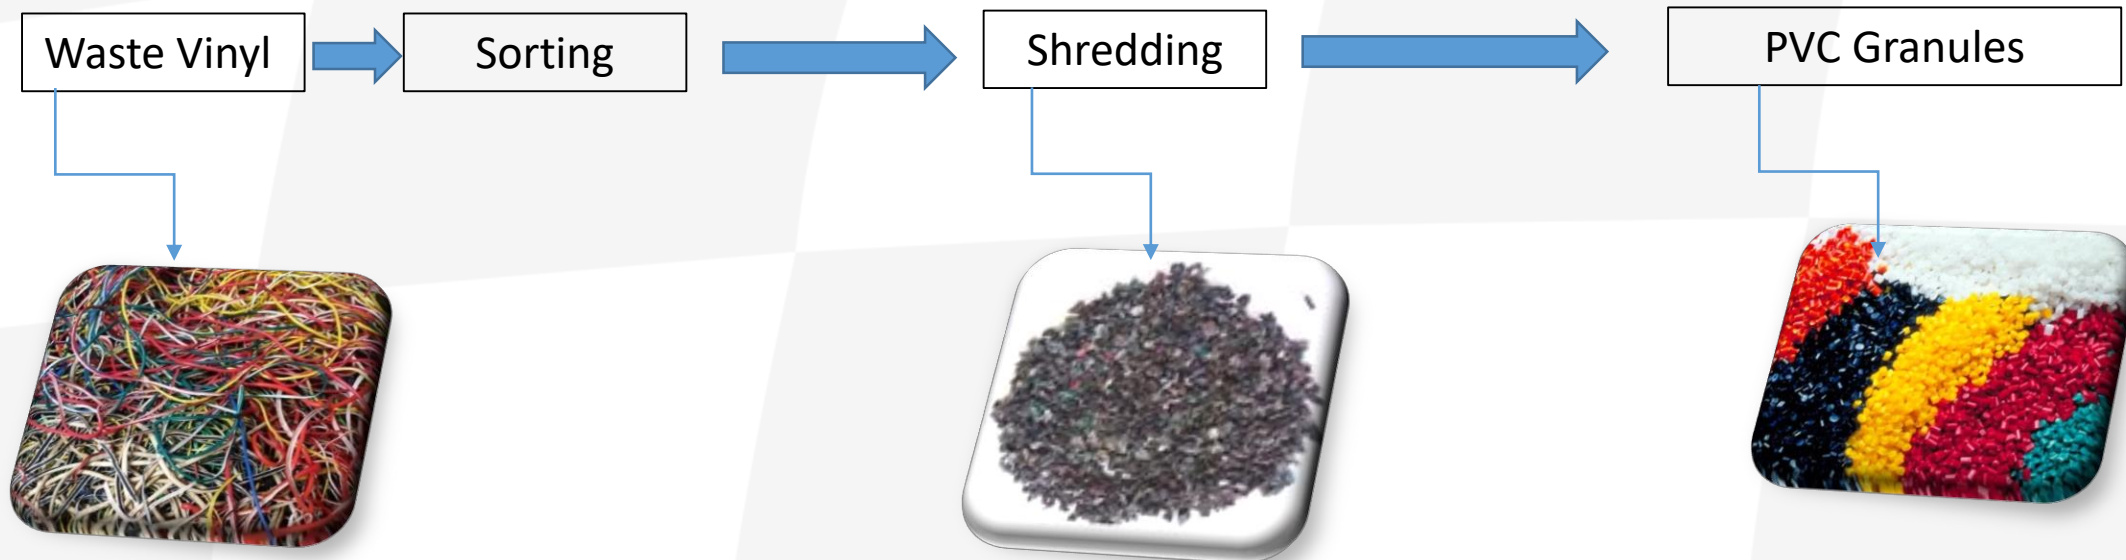

---

Just think before you bin it, there could be some use in it!

# VINYL SCRAP TO VINYL FLOOR MAT

PVC scrap can be reprocessed into new products, such as the inner core in hoses, industrial flooring and mud flaps, which reduces cost instead of purchasing new virgin material. As consumers are inclined to buy more green products, recycling PVC will improve the public image and bring broader markets.

- HYCO is committed to using only 100% Recycled PVC granules in creation of floor mat products.

HERE IS OUR FINAL PRODUCT

# SCRAP FOAM TO REBONDED FOAM

Just think before you bin it, there could be some use in it!

## SCRAP FOAM TO REBOUNDED FOAM

As the world is moving towards Sustainability, HYCO introduces the first of its kind, NVH Car Floor mats made out of recycled SCRAP FOAM. Our aim is to go green by increasing reusability and lessening the burden of polluting our environment. And HYCO is committed to using only 100% Recycled rebounded foam in creation of NVH floor mat products.

HERE IS OUR FINAL PRODUCT

# BATTERY WASTE TO MUD FLAP

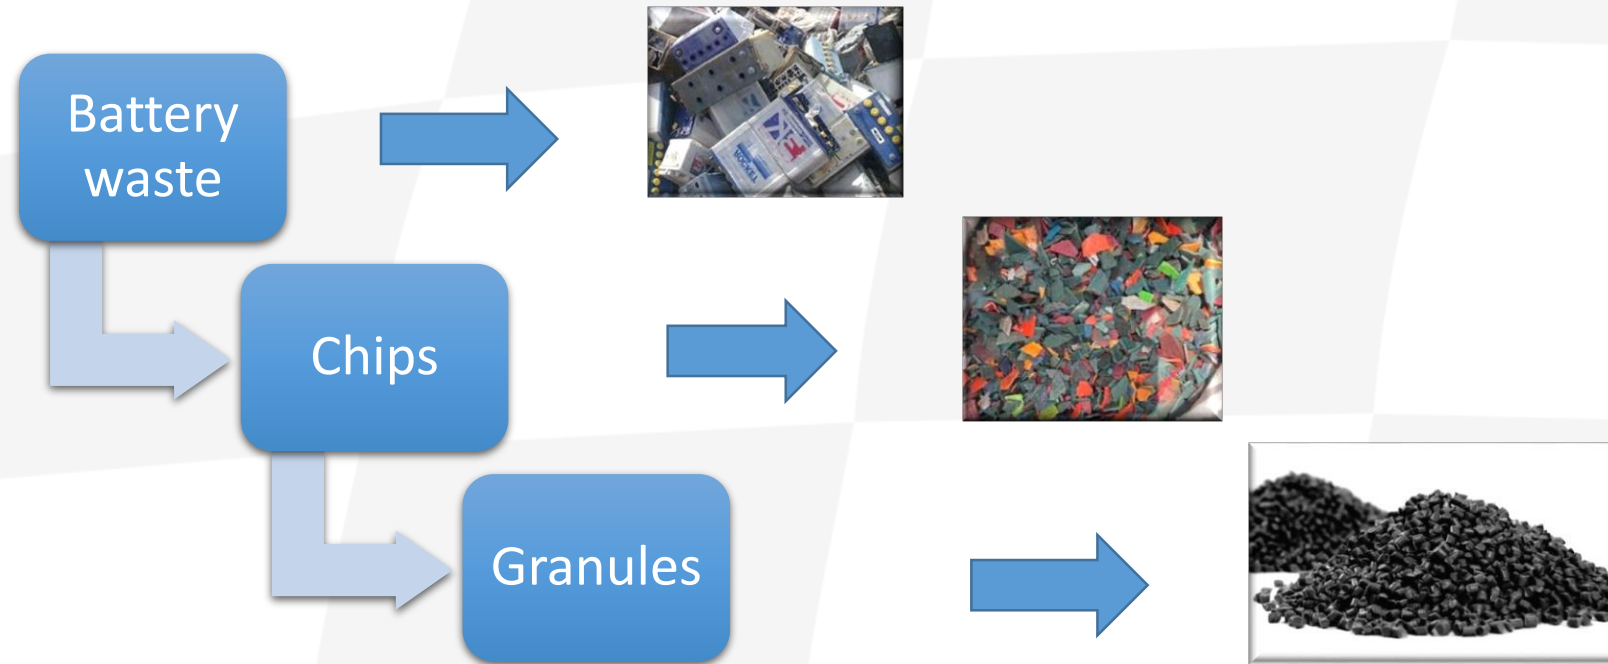

---

Be a superhero for the environment, recycle your batteries.

## BATTERY WASTE TO MUDFLAP

As the world is moving towards Sustainability, HYCO introduces the first of its kind, NVH Car Floor mats made out of recycled SCRAP FOAM. Our aim is to go green by increasing reusability and lessening the burden of polluting our environment. And HYCO is committed to using only 100% Recycled rebounded foam in creation of NVH floor mat products.

- Audio Record.
- Auto power ON/OFF.
- Private Design Plastic Material

# 2C 1A CAR CHARGER

Car Charger

Output Ports  
USB-A & USB-C

Input  
DC 24V

QC Output  
QC 3.0 5V/3A, 9V/3.1A

Support  
QC3.0, PD  
15W,27W,36W,& 45W

Material  
ABS

PD Output  
5V/3A, 9V/3A, 12V/3A,  
15V/3A, 20V/2.25A

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- LCD Display
- High Efficiency

# USB CAR CHARGER

Car Charger

Output Ports  
USB-A & USB-C

Support  
QC3.0, PD 15W,20W

Input  
DC 14V

Material  
ABS

QC Output  
QC 3.0 5V/4.5A, 9V/3.1A,  
12V/1.5A

PD Output  
5V/3A, 9V/2.4A,  
12V/1.6A,

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- Multiple Protection Layers.
- High Efficiency

# 2A 1C CAR CHARGER

Car Charger

## Output Ports

2x USB-A & USB-C

## Support

QC3.0, PD  
15W,27W,36W,45W

## Input

DC 24V

## Material

ABS

## QC Output

QC 3.0 5V/3A, 9V/3.1A,  
12V/2.3A

## PD Output

5V/3A, 9V/3A, 12V/3A,  
15V/3A

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- LCD Display
- High Efficiency

# CAR CHARGER

Car Charger

Output Ports  
USB-A

Output  
5V/2.1A

Input  
DC 24V

Material  
ABS

Features  
LED Indicator

Color  
Black

- Compatible with Android & IOS.
- LED Indicator
- Multiple Protection Layers.
- High Efficiency

# PD CAR CHARGER

PD Car Charger with Qualcomm Quick Charger 3.0

**Output Ports**  
2x USB-A

**Support**  
Qualcomm QC 3.0

**Input**  
DC 12V/24V

**Material**  
Aluminum Alloy

**QC Output**  
QC3.0 5V/3A, 9V/2A,  
12V/1.5A

**Regular Output**  
5V/2.4A

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- Multiple Protection Layers.
- High Efficiency

# TEP-21 PD CAR CHARGER

TEP-21 PD Car Charger With QC3.0

Output Ports  
USB-A & Type C

Support  
QC3.0 & PD 20W

Input  
DC 12V/24V

Material  
ABS

QC Output  
QC3.0 5V/3A, 9V/2A,  
12V/1.5A

PD Output  
5V/3.1A, 9V/2.2A,  
12V/1.6A (20W MAX)

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- Support 20W USB-C Power Delivery.
- Multiple Protection Layers.

# LZ-348 QC3.0 CAR CHARGER

Car Charger

## Output Ports

2x USB-A

## Support

Qualcomm QC 3.0/  
QC3.1

## Input

DC 12V/24V

## Material

ABS

## QC Output

QC3.0 5V/3A,  
QC3.1 5V/3.1A

## Regular Output

5V/2.4A

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- Multiple Protection Layers.
- High Efficiency

# PD CAR CHARGER

PD Car Charger with Qualcomm Quick Charger 3.0

Output Ports  
USB-A & Type C

Support  
QC3.0 & PD 20W

Input  
DC 12V/24V

Material  
ABS

QC Output  
QC3.0 5V/3A, 9V/2A,  
12V/1.5A

PD Output  
5V/3.1A, 9V/2.2A,  
12V/1.6A (20W MAX)

- Support 20W USB-C Power Delivery
- Compatible with Android & IOS.
- Support Qualcomm 3.0..
- Multiple Protection Layers.

# DUAL USB CAR CHARGER

Car Charger

Output Ports  
2x USB-A

Output  
5V/3.6A

Input  
DC 12V/24V

Material  
PC + ABS

Rated Power  
18W

Color  
Black, Red

- Compatible with Android & IOS.
- Multiple Protection Layers.
- High Efficiency & Stable Output

# CAR MOBILE HOLDER

Car Holder

Output Ports  
2x USB-A

Support  
Universal

Input  
DC 12V/24V

Material  
ABS

Feature  
Flex mobile Holder

Regular Output  
5V/2.4A

- Compatible with Android & IOS.
- Multiple Protection Layers.
- High Efficiency

# CT-81 CAR CHARGER

Dual USB Car Charger With Back Seat

Output Ports  
4x USB-A

Input  
DC 12V/24V

QC Output  
QC3.0 5V/3A, 9V/2A,  
12V/1.5A

Support  
Qualcomm QC 3.0

Material  
Aluminum Alloy

Regular Output  
5V/3.1A

- Compatible with Android & IOS.
- Support Qualcomm 3.0.
- Multiple Protection Layers.
- High Efficiency

# CAR MOBILE HOLDER

Car Holder

Output Ports  
2x USB-A

Output  
5V/2.4A

Input  
DC 12V/24V

Material  
ABS

Nano Mist  
Humidification

Low Noise  
<36db, 35dB

- Compatible with Android & IOS.
- Multiple Protection Layers.
- High Efficiency & Stable Output

# CAR CUP INVERTER

Car Charger

Output Ports  
2x USB-A

Output  
12V/24V

Input  
DC 12V/24V

Material  
ABS

Features  
Dual Cigarette Lighter

Color  
Black

- Compatible with Android & IOS.
- Multiple Protection Layers.
- High Efficiency & Stable Output

# CAR CHARGER CUP

Car Charger

Output Ports  
2x USB-A

Output  
12V/24V

Input  
DC 12V/24V

Material  
ABS

Features  
Digital Display

Color  
Black

- Compatible with Android & IOS.
- Multiple Protection Layers.
- High Efficiency & Stable Output

# CAR INVERTOR

150W Car Charger

Output Voltage  
AC 220 50HZ USB

Power Rate  
150W

Input Voltage  
12V DC

Max Power  
200W

Output  
5V/0.5°

Voltage Protection  
5V/2.4A

# DYNO 120,000MAH

Power Station

## Battery Capacity

120,000mAh

## Compatible

Universal

## Universal

2 x USB-A, 1x USB-A  
QC 3.0, Type-C QC PD,  
12V DC, & 220V AC

## Output Power

Max 500W

## Weight

3.7kg

## Features

Digital Display & LED  
Torch

- Built in Bluetooth Speaker

# AUX CABLE

Type C Auxiliary Cable

**Connectors**  
Aux to Type-C

**Input Type**  
USB-C

**Speed**  
100 mbps

**Length**  
1 Meter

**Color**  
Black

**Material**  
Fabric

- Compatible with Android.
- High Efficiency.

# MFI DATA CABLE

MFI Data Charging Cable

## Connectors

USB-A to Micro, USB-C,  
Lightning

## Input Type

USB-A

## Output Power

60W Max

## Length

1 Meter

## MFI

Certified

## Material

Fabric

- Compatible with Android & IOS.
- Support Data Transfer.
- MFI Certified.
- Aluminum Alloy Housing Connectors.

# DATA & CHARGING CABLE

All in One Data & Charging Cable

## Connectors

Lightning , Micro,  
Type - C

## Output

2.4A

## Color

Black

## Output

2

## Length

1 Meter

## Weight

70 g

# CAR HEADREST MOUNT

Car Headrest Mount for Mobile/Tablet Holder

## Type

Mobile Holder

## Material

Aluminium Alloy

## Compatible

Universal

## Rotation

360 Degree

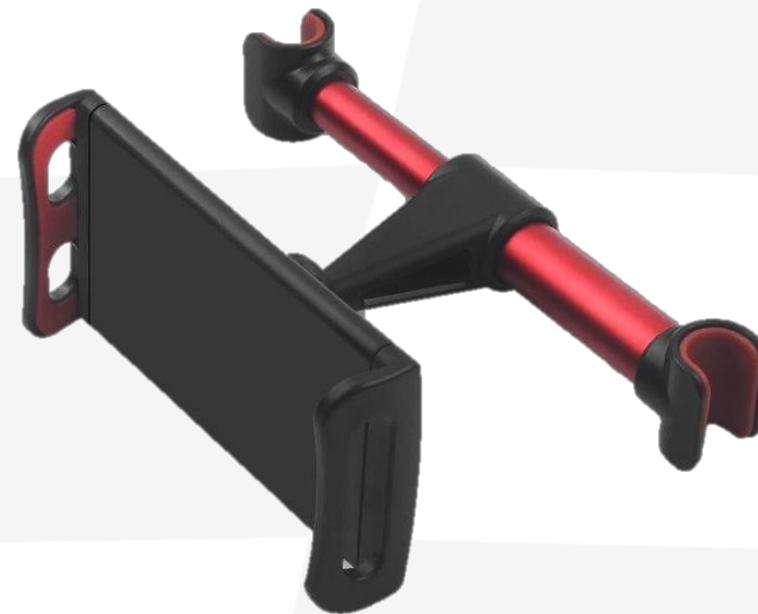

## Color

Black

## Features

One hand operation

- Stable and firm, prevent the mobile phone from sliding
- Easy to install.

# WIRELESS CHARGER/HOLDER

Wireless Charger

## Type

Wireless Charging  
holder

## Material

ABS

15W/10W/7.5W

Wireless output Power

5V/2.4A,9V/2A

Input Type C

0-5mm

Charging Distance

110-205KHZ

Rated Frequency

- Wireless Car Charger is made of good quality ABS.
- Wireless Charger For Car combined wireless charger and car mount.
- Phone Mount For Car Charger features a 360-degree swivel and pivot ball joint.

# WIRELESS CAR CHARGER HOLDER

15W Magnetic Wireless Car Charger Holder

## Type

Magnetic Wireless  
Charging Holder

## Material

ABS

## Output

15W

## 9V/2A

Input

## 8mm

Charging Distance

## Color

Black

- 15W Magnetic Wireless Charging.
- Portable Design.
- Powerful Magnetic.
- Free Bending Variable Angle.

Black

Size  
6.4 x 6.4 x 15.5 cm

# AIR PURIFIER

Air Purifier

Type  
Air Purifier

Air Flow  
10 M negative ions

Power Source  
USB

Material  
ABS

Color  
Grey

Size  
18 x 6.5 x 6.5 cm

# VACUUM CLEANER

Multi Functional Portable Vacuum Cleaner  
Purifier

Type  
Vacuum Cleaner

Battery Capacity  
4000mAh

Input voltage  
DC 12V

Material  
ABS

Color  
Grey

Size  
65x205x65mm

# PORTABLE MINI-FAN

Portable Mini-Fan

360  
Degree

Input  
Micro USB

Color  
Black & White

Design  
Clip on

Battery  
Rechargeable

Features  
Power/ Speed Control  
Button

- Clip on Design
- Micro USB Charging port
- Rechargeable Battery
- Power/Speed Control Button

# LED COLOR DOOR SCUFF

## LED Color Door Scuff

**Material**  
Acrylic

**Lights Color**  
7 Colors

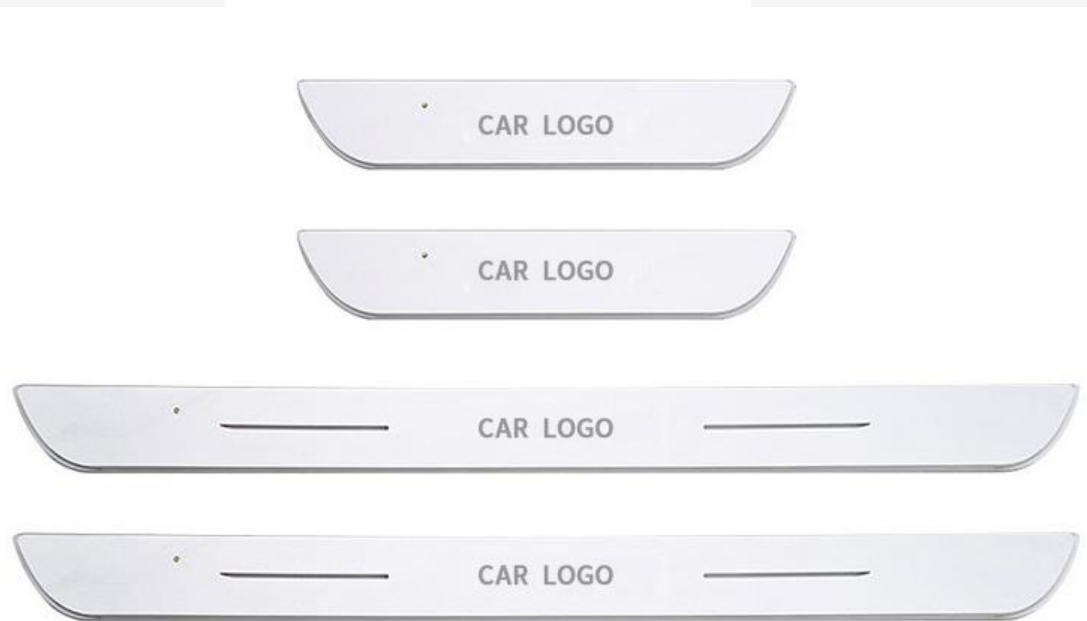

**Luminous Mode**  
Breathing Type

**Lightning Time**  
45 second

**Battery Life**  
2-3 months

**Charging Time**  
1-2 Hours

- Micro USB Charging Mode
- Built-in Magnetic adsorption
- Light-Sensitive switch
- 3 Kg Weight

# CAR WASHER

Portable Car Washer

85W  
Power

21V/24V  
Voltage

Working Time  
40 Minutes

Battery  
2000mAh

Motor Speed  
20000 RPM

Pressure  
30 Bars
